Dear Parent/Guardian

Ref: Tassomai Progress Reports

Following the successful introduction of the Tassomai system to assist with pupil learning in Science, we are looking to launch a Progress Report option where parents would get an email once a week from Tassomai providing you with an update of how well your child is using the program.

If you would like to register to receive the weekly email update of your child's progress please sign the below slip and confirm the email address you would like the update to be sent to. Two emails can be provided if both parents/guardians would like to receive the report.

Please note we will be providing your name and email address to Tassomai in order for them to facilitate these reports. This information will only be used to send the weekly progress report and will not be used for any other reason.

Yours faithfully

Ms H Young
Assistant Headteacher/Head of Science
